

用CSS3画公司logo

本练习主要用到CSS3的元素形变，圆角的一些属性。

公司的Logo如下图

首先构造三个圆圈的HTML结构:

```
<div id="wrap">
  <div id="left-circle">
    <div id="left-inner">
      <div id="small-circle"></div>
    </div>
  </div>
  <div id="mask"></div>
  <div id="mask-circle"></div>
  <div id="right-circle">
    <div id="right-inner"></div>
  </div>
</div>
```

定义CSS:

```
#wrap {
  width: 400px;
  height: 400px;
  background: #f86768;
}

#left-circle {
  width: 200px;
  height: 200px;
  border-radius: 100px;
  background: #fff;
  position: relative;
  top: 100px;
  left: 50px;
  float: left;
}

#left-inner {
  width: 140px;
  height: 140px;
  border-radius: 70px;
  background: #f86768;
  position: relative;
  top: 30px;
  left: 30px;
}

#right-circle {
  width: 130px;
  height: 130px;
  border-radius: 65px;
  background: #fff;
  position: relative;
  top: 164px;
  left: 16px;
  float: left;
}

#right-inner {
  width: 70px;
  height: 70px;
  border-radius: 35px;
  background: #f86768;
  position: relative;
  top: 30px;
  left: 30px;
}

#small-circle {
  width: 24px;
  height: 24px;
  border-radius: 12px;
  background: #fff;
  position: relative;
  top: 80px;
  left: 100px;
}

#mask {
  width: 70px;
  height: 70px;
  background: #f86768;
  position: absolute;
```

```
    left: 222px;
    top: 160px;
    transform: rotate(-36deg);
}

#mask-circle {
    width: 30px;
    height: 30px;
    border-radius: 15px;
    background: #fff;
    position: absolute;
    top: 150px;
    left: 216px;
}
```
